- Homeless Services-Shelters
- County Commissioners
- Department of Health Human Services
- Local Charity Organizations
- Faith Based Organizations
- Individual and Local Businesses

Vision

Mission Statement: There is a clear, urgent and ongoing need to provide fundamental support to the at-risk student and family population and those experiencing homelessness in Buncombe County School Districts. Our center will use holistic, integrated strategies to provide direct services as well as act as a convener of available support services. Our “One Stop” strategy will reduce barriers to services, better enabling access to critical support needed to improve quality of life for our students and families. However, we are a small piece of the puzzle and it is our goal to service all our students and provide the best resources possible.
