Goals for Presentation

Provide an introduction to the homeless system so you know more about your partner.

Changes in Housing Crisis Response

Homelessness should be:

Rare

Prevent or divert new episodes of homelessness Access resources without a shelter stay

Brief

Reduce length of time while homeless Reduce program length of stays Increase exits to permanent housing

Non-recurring

Reduce returns to homelessness Focus on housing stability Create access to resources without another shelter stay

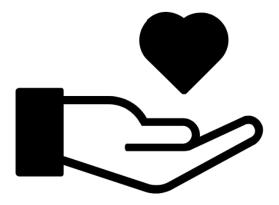

We know how to achieve these goals.

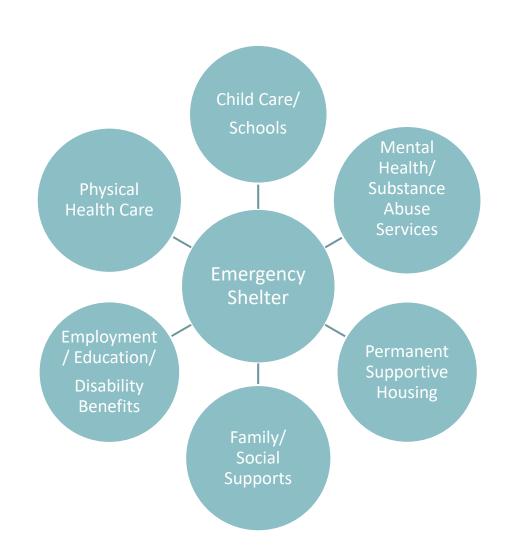

Adequate Income

Appropriate Services

Moving from a system that centers on shelter to...

- 1. Experience housing crisis
- Move from system to system seeking support
- Lose Housing
- 4. Enter Emergency Shelter
- 5. Address barriers to housing while in the shelter or transitional housing

a system that focuses on housing stabilization.

- 1. Experience housing crisis
- 2. Reach out for support
- 3. Providers assess for housing risk and make referral to housing stabilization services
- 4. Based on client need, appropriate services are provided (e.g. short or long term rental assistance, wrap-around services, landlord mediation and housing search)
- 5. Client may need to stay at a shelter while receiving stabilization services

Our projects operate within a system

We tend to think about our projects

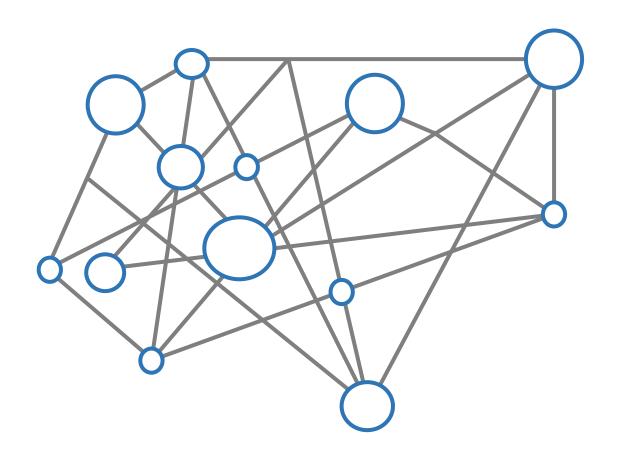

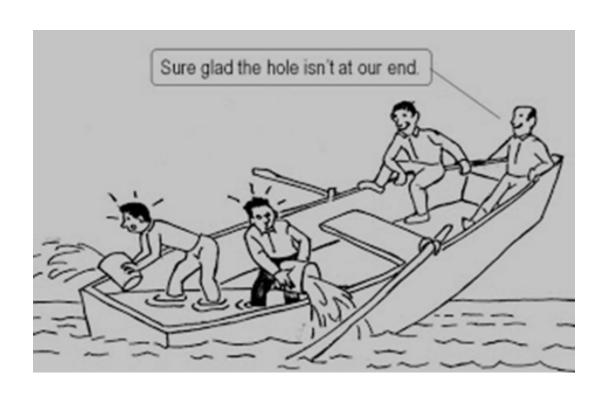

How is my project performing?

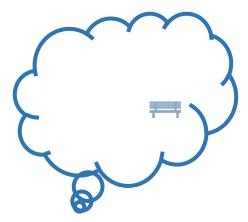

How many clients did we serve?
How many clients found permanent housing?
How many of those clients returned to homelessness?

Our work is interconnected

Shifting the way we think about performance

How is our system performing?

How does my project's performance impact the system? Is our system meeting the need of the people in housing crises?

How should we invest our limited resources?

HUD definition of homelessness narrows focus to those most in need.

Working as Housing Crisis Response Systems

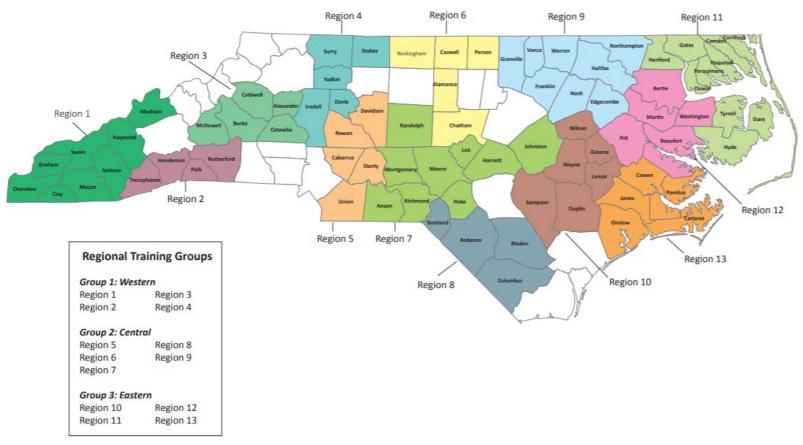

Our projects operate within a system

There are 12 CoCs in North Carolina.

The NC Balance of State CoC has 13 Regional Committees.

Building Partnerships between Systems

Schools can participate in new coordinated entry processes.

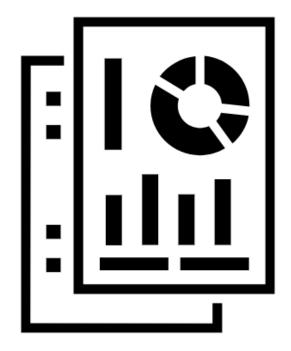

- Act as an assessment point or front door for the system in your community
- Refer into the coordinated entry process
- Understand the coordinated entry process and voice feedback for the CoC on what is good and challenging

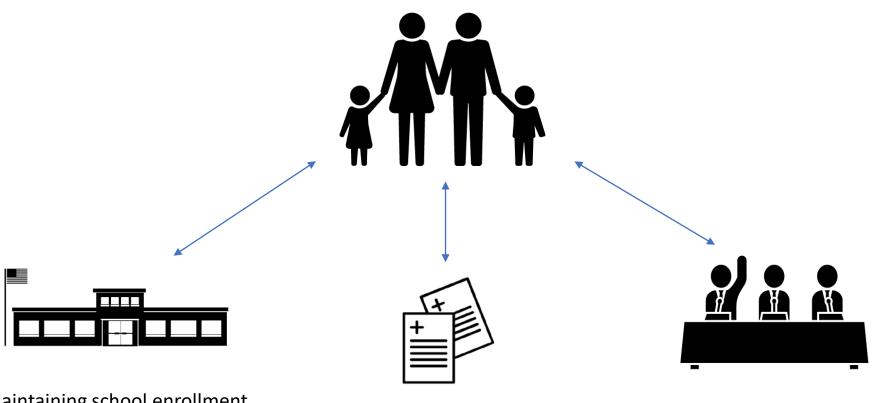

Schools and Housing Crisis Response Systems gather data to understand the need.

- School liaisons participate in Point-In-Time (PIT) counts on an annual basis → Annual Homelessness Assessment Report (AHAR) to congress
- Help your homeless crisis response system understand youth homelessness in your community

Schools help housing crisis response systems so families have coordinated services.

Maintaining school enrollment and transportation services
